

## **Spiritual Guidance/Direction with Rev Dan Johnson**

Spiritual Guide/Director/Companion  
Certified NeuroTransformational Coach

*"Inspiration occurs when one's conscious mind gets out of the way of their natural unconscious energy."*

--Michael Newton, author of Life Between Lives

Spiritually curious? Spiritual but not religious? Want to deepen your connection with your own spirit, Universal Intelligence, or the divine? Meeting with a Spiritual Guide/Director/ Companion can be a meaningful step to help you find wholeness and balance in life, not to mention deeper connection to Source Energy, The Universe, God, or the divine of your own understanding.

Simply stated, Spiritual Direction aims to help us experience the eternal and infinite aspects of our true nature through the wise, experienced, and compassionate company of another human being. However, everyone's experience of Spiritual Guidance/Direction/Companionship is unique as each of us experiences our soul and connection to the infinite in our own way.

Why work with me as your Spiritual Guide/Director/Companion?

- I offer a safe, mystical space which helps you find and follow your own spiritual path
- I will ask insightful, open-ended questions that spark your connection with that infinite part of you
- I allow you to discover your own path and connection to Source, The Universe, God, One Energy, or the divine of your own understanding without judgment, influence, or proselytizing.
- I honor the free will and discernment of each human being, especially in spiritual matters
- I help you create a stronger relationship with self, others, and Source (or however you refer to the oneness of all being)
- I follow universal ethical principles that allow you to discover your own meaning and connection with your sense of the divine
- I have been strongly aware of energy, the spirit world, and Source Energy since childhood

***"You created a sacred space where I could uncover, recover, and strengthen my own connection to spirit and feel oneness with the Universe. Life is much more fun, magical, and rewarding." - T. S. H.***
